PROFESSIONAL PROFILE

Motivated Software Engineering undergraduate and Full-Stack Developer with hands on experience in developing cross-platform mobile applications using Flutter and building AI-powered solutions. Proficient in JavaScript, Dart, Java, C#, Python and database management. Passionate about designing scalable, user centric applications and solving real-world problems through innovative technology. A quick learner with strong analytical, problem-solving, and teamwork skills, seeking a Software Engineering Internship to contribute technical expertise while gaining industry experience in a collaborative and growth oriented environment. Particularly interested in Full-Stack Development, Artificial Intelligence, Mobile Application Development and Software Quality Assurance.

TECHNICAL SKILLS

- **Programming Languages:** - JavaScript, Dart, Java, Python, C#
- **Frameworks & Libraries:** - Flutter, React.js, Express.js
- **Frontend Development:** - HTML5, CSS3
- **Backend Development:** - Node.js, REST APIs
- **Databases:** - MongoDB, MySQL, Firebase
- **Tools & Platforms:** - Git, GitHub, Postman, Figma

PROFESSIONAL EXPERIENCE

QA Hackathon Participant & Industry Visit | 99x Technology | 2026

- Participated in a Quality Assurance (QA) Hackathon, collaborating with team members to execute software testing activities, identify defects, and contribute to improving application quality through structured testing approaches.
- Obtained practical exposure to software quality assurance, Agile development methodologies, testing life cycles, and industry best practices through interactive technical sessions and an on-site industry visit.
- Strengthened analytical, problem-solving, communication, and teamwork skills by engaging with software engineering professionals and participating in real-world QA-focused activities.

Clerk | VS Cleaning Services | 2024

- Managed inventory records for cleaning equipment, tools, and cleaning chemicals, ensuring accurate stock levels and timely replenishment.
- Maintained inventory documentation, purchase records, and stock movement reports with a high level of accuracy.
- Monitored the receipt, storage, and distribution of cleaning supplies to support daily business operations.
- Assisted with administrative tasks, including document management, data entry, and record keeping, while ensuring efficient office operations.

TECHNICAL PROJECTS

Planora – AI Study Planner | May 2026 – July 2026

Self-Directed Project | Flutter + Dart + Firebase + Local Notifications

- Built a cross-platform mobile application that replaces manual study scheduling with dynamic, auto-generated daily study plans.
- Engineered a smart time-allocation algorithm that processes exam urgency, subject priority, and difficulty to generate optimized study schedules.
- Integrated Firebase services (Firestore, Auth, Storage) for real-time data synchronization and implemented automated push notifications for study session reminders.
- GitHub: <https://github.com/cChandeera/AI-Study-Planner>

TogetherWeRise – Community Fundraising Platform | April 2026 – Present

Full-Stack Project | MongoDB, Express.js, React.js, Node.js (MERN Stack)

- Developed a full-stack community fundraising platform using the MERN stack (MongoDB, Express.js, React.js, and Node.js) to support online fundraising campaigns.
- Created a responsive and intuitive user interface, ensuring a smooth and consistent user experience across desktop and mobile devices.
- Implemented secure authentication, campaign creation and management, and donation monitoring features using RESTful APIs and database integration.
- GitHub: <https://github.com/cChandeera/Togetherwise-MERN>

Expense Manager | 2026

Desktop Application | Java + MySQL

- Developed a desktop-based expense management application using Java and MySQL to help users efficiently record and manage daily financial transactions.
- Designed an intuitive interface with features to add, view, update, and delete expense records, providing a simple and user-friendly experience.
- Integrated a MySQL database for secure data storage and retrieval, ensuring accurate expense tracking and efficient data management.
- GitHub: <https://github.com/cChandeera/Expense-Manager-Java-MySQL>

EDUCATION

Higher National Diploma in Information Technology

Expected 2027

Sri Lanka Institute of Advanced Technological Education (SLIATE)

G.C.E. Advanced Level – Physical Science Stream

2022 / 2023

Results: 2 C, 1 S

G.C.E Ordinary Level

2018

Results: 2 A, 3 B, 4 C

CERTIFICATIONS

- IT Essentials – Cisco (2025)
- Introduction to Flutter – SimpliLearn(2026)
- Android App development for Beginner – SimpliLearn (2026)
- Introduction to Figma – SimpliLearn (2025)
- Web Design Basics – University of Moratuwa (2024)

SOFT SKILLS & LANGUAGES

Soft Skills:

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Communication Skills
- Time Management
- Self-Learning

Languages:

- Sinhala (Native Proficiency)
- English (Professional Working Proficiency)
